

PHOTO SUPPLY VENDOR LIST
(update 8.04.09)

Most of these basic photo supplies suitable for Photo 10 classes should be available at the local vendors listed below. The Chaffey Bookstore also carries photo supplies.

8x10 B&W paper (probably Ilford)
35mm B&W Kodak or Ilford film
negative sleeves
mount tissue
small matboards

Kodak film products may be more widely available than Ilford products, however, as of July 2005 Kodak no longer manufactures B&W paper. Some local camera stores will carry small supplies of Ilford B&W paper.

DO NOT buy the C-41 process B&W films! If you do – the film needs to be processed at a one-hour photo lab.
